Email

The Hydraulic Investigation is for **(1) One standard connection** based on the estimated usage for one household. Any other needs will require a Non-Service Hydraulic Investigation. If the consulting engineer determines that the needs are beyond a standard service, applicant will be notified in writing and given options to continue with the study, including additional costs.

This is not a service agreement, only an application for a feasibility study. If service is available, a written quote will be provided within 30 days of this application. The location of connection is subject to approval by the Corporation.

I, the undersigned, attest that the property to which this study is applicable is not part of a division of property.
